NIKA Announces EFD.Lab 3.1 Demo at MICAD in Paris EFD.Lab fluid flow and heat transfer simulation program will be demonstrated at MICAD in Paris, April 1 - 3, 2003

Frankfurt, Germany (February 26, 2003) --- NIKA announced that its flagship product EFD.Lab 3.1, the latest release of its stand-alone fluid flow and heat transfer simulation program, will be demonstrated at MICAD in Paris, April 1 – 3 . The demonstrations will take place at the Brime Technologies booth (E 22).

Based on the principles of Engineering Fluid Dynamics (EFD), EFD.Lab offers unsurpassed ease-of-use, design and analysis power to the engineering community. With its latest release, EFD.Lab now supports Non-Newtonian liquids, surface-to-surface radiation, enhanced pre- and postprocessing and a floating license option. As a result, EFD.Lab is now more tailored to meet the special requirements of design cycle integrated fluid flow and heat transfer simulation.

“With our latest release of EFD.Lab, NIKA continues its philosophy of obtaining higher fluid flow simulation efficiency and satisfying user requests,” explained Roland Feldhinkel, CEO, NIKA GmbH. More than 80 % of the new features included in our EFD.Lab 3-series are based on customer and prospect suggestions. “The addition of the floating license option in EFD.Lab 3.1 allows our customers to conduct simulations even more efficiently!”

EFD.Lab is currently being put to work in a wide variety of industries including aerospace, automotive, electronics, HVAC systems, industrial flow control and valves, medical equipment, textile machinery, packaging, processing (food, chemical and materials) and power generation.

The growing list of EFD.Lab customers includes: Alfred Kärcher, Black & Decker, Danfoss, Dassault Falcon Jet, Delphi Automotive, Fujifilm, General Electric, Neff, NEC, Puretec, Rotarex, TRW.

About NIKA

NIKA GmbH was founded in 1999 and specializes in development and marketing of simulation software for fluid flow and heat transfer (Computational Fluid Dynamics). NIKA GmbH is a worldwide operating company with headquarters in Frankfurt am Main, Germany. EFD.Lab is distributed by authorized NIKA sales partners in Germany, France, Italy, Benelux, Spain, Scandinavia, USA, Japan and Korea. NIKA is actively looking for additional qualified distribution partners worldwide.

EFD.Lab is a registered trademark of NIKA Software GmbH. All other brands or product names are trademarks of their respective owners.
